

Baby Ddrops™ for Strong Bones and Teeth

HOW TO USE BABY Ddrops™

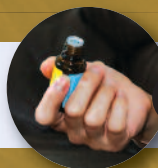

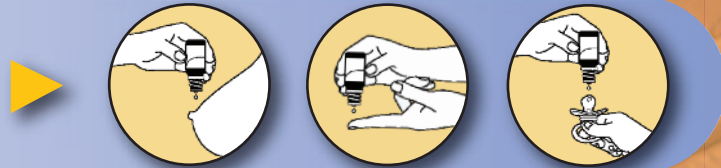

1

Remove lid, turn the bottle completely upside down.
In a few seconds, the drop will fall out by itself.
Do not shake the bottle.

2

Once a day, put 2 drops onto mother's
nipple, a clean finger or a pacifier.
Allow baby to suck for at least 30 seconds.

3

Return bottle to upright position, put on cap.

4

Do not give more than _____ drops in one day.

Store Baby Ddrops™
upright and at
room temperature.

**KEEP OUT OF
REACH OF CHILDREN.**

What is Baby Ddrops™?

- Baby Ddrops™ is a vitamin D supplement
- Baby Ddrops™ contains 400 IU of vitamin D in just one drop
- Baby Ddrops™ contains no artificial flavor and no added color. It contains only vegetable oil and vitamin D
- Give Baby Ddrops™ to babies and children until 2 years old

Why do babies need Baby Ddrops™?

- Helps babies and children to build strong, healthy bones and teeth
- If babies and small children do not get enough vitamin D they can get the disease rickets
- Rickets is a painful disease where bones get soft and bend
